To request Telehealth/VC or Audioline, **please click on the video or telephone icons above or** next to the session title on the website for more information on how to register. **** Telehealth is available for all registrants to attend, check for your local telehealth location for more information. ****

The purpose of this session will be to educate participants on the benefits of using music in early childhood. The presenters will also give an overview of how the development of infants and toddlers is promoted through music therapy interventions.

Level I: This session presents an overview of therapeutic music therapy for youth, and would best meet the needs of families and/or professionals with little to no knowledge of, or experience, with this topic.

This session is presented by the Community Education Service of the Child & Adolescent Addictions & Mental Health Portfolio & Psychiatry (CAAMHPP) of Alberta Health Services in partnership with **Therapeutic Arts Program at the Alberta Children's Hospital.**
