apply.
Limited child
care available,
call:
(403) 955-2500

Register: <http://community.hmhc.ca/>

To request Telehealth/VC or Audioline, **please click on the video or telephone icon** above or next to the session title on the website for more information on how to register.

Participants can expect to learn what clinical high risk of psychosis is, as well as what we know about conversion to psychosis. They will learn about symptoms that help identify young people at risk for psychosis. Finally, they will learn about our research group, how our projects might be helpful to them and their clients and how to refer to our program.
