ADHD is often thought of in terms of its symptoms and associated problems. Unfortunately, a deficit-based approach, focusing on what is wrong, can be very impairing for children and their families. However, there are so many positive qualities of ADHD that need to be celebrated! In this session, you will learn about why ADHD is awesome and the assets children with ADHD possess. Importantly, you will also learn how ways to help children learn to embrace their awesomeness and boost them to success.
