### Participants will learn:

- Origins of the internet and how its current design can be a concern for police, governments and individual users
- Information on "the deep web" and how that is impacting law enforcement
- The permanency of the internet and the concept of digital citizenship
- The importance being involved and helping shape your child's internet experience
- The importance of having a respectable internet footprint
- The dangers of having your devices infected by malware
- How online predators target children and other risks associated with social media
- Offensive material online
- The prevalence of identity theft
- Importance of strong passwords
- The phenomena of cyberbullying
- Gaming pitfalls
- Calgary Police Service resources dedicated to these issues
- Helpful tips and links for further education
