This presentation will focus on a brief history of FASD, as well as current conceptualizations surrounding diagnosis. Assessment domains and methods will be discussed, highlighting current Canadian guidelines. The presentation will conclude with some comments on secondary and associated features.

Level I: This session presents an overview of FASD and would best meet the needs of families and/or professionals with little to no knowledge of, or experience, with this topic.

This session is presented by the Community Education Service of the Child and Adolescent Addiction, Mental Health and Psychiatry Program (CAAMHPP) of Alberta Health Services in partnership with **Renfrew Educational Services**
