*"So what's the deal with concussions?  
It's just a little bump to the head.....right?"  
Would you know what to look for if your kid sustained a concussion?  
Would you know what to do?"*

Participants are provided with the most current information on the importance of recognising and properly managing this invisible injury. Whether a parent, volunteer coach, athlete or health care professional... participants will leave feeling empowered in their ability recognise the signs and symptoms, and know what to do when a concussion is suspected. Further discussion surrounding resources and help available for those who are experiencing the long term effects of post-concussion syndrome.
