To request Telehealth/VC or Audioline, **please click on the video or telephone icon** above or next to the session title on the website for more information on how to register.

Child abuse is a serious, pervasive and complex issue experienced by approximately 1/3 of Canadians. All adults who work with children and youth have an obligation to report suspected abuse. Talking with a child or youth about suspected abuse or making a report is often very stressful. Knowing what signs to look for, how to respond and what to expect when you report can help make this difficult situation more manageable. This session is designed to increase the capacity of adults who work with children and youth to:

- Recognize behavioral and physical signs of potential child abuse
- Respond to children and youth who disclose or give subtle verbal clues
- Confidently report suspected child abuse.

This session is presented by the Community Education Service of the Child & Adolescent Addiction, Mental Health & Psychiatry Program (CAAMHPP) of Alberta Health Services in partnership with the **Calgary Police Service** and **Sheldon Kennedy Child Advocacy Centre**.
