Learn about speech and language difficulties and their impact on children and youth in terms of academic achievement, psychological and social development. The presentation will describe what to do if you are concerned about your child's communication abilities or fluency. Therapy resources for children and youth and information about speech and language treatment options will be provided. This presentation will also discuss ISTAR's speech and language services, research projects and how to access ISTAR's services.

Level I: This session presents an overview Speech & Language, and would best meet the needs of families and/or professionals with little to no knowledge of, or experience, with this topic.

This session is presented by the Community Education Service of the Child and Adolescent Addiction, Mental Health and Psychiatry Program (CAAMHPP) of Alberta Health Services in partnership with the [Institute for Stuttering Treatment & Research \(ISTAR\)](#)
