The legalization of marijuana is here. As adults, we play an important role in supporting our City's youth in making smart decisions surrounding its use. To help you play this role successfully, we're inviting parents, teachers and youth-mentors to learn more about its use, the health and social harms and changes in federal, provincial and municipal laws. This informative and engaging presentation focuses on facts and helpful strategies to help you start supportive conversations surrounding cannabis and its use with the young people in your life.

Level I: This session presents an overview cannabis and youth, and would best meet the needs of families and/or professionals with little to no knowledge of, or experience, with this topic.

This session is presented by the Community Education Service of the Child and Adolescent Addiction, Mental Health and Psychiatry Program (CAAMHPP) of Alberta Health Services in partnership with The YouthLink Calgary Police Interpretive Centre.
