****Register: <http://community.hmhc.ca/>****

To request Telehealth/VC or Audioline, **please click on the video or telephone icons above or** next to the session title on the website for more information on how to register.

Grief is a universal experience, yet we often feel vulnerable in our ability to support bereaved families. This session will present a basic understanding of working with grief and bereavement. Participants will enhance learning around contemporary grief theories, healthy symptoms and experiences of grief and caring interventions.

Level I: This session presents an overview of grief, and would best meet the needs of families and/or professionals with little to no knowledge of, or experience, with this topic.

This session is presented by the Community Education Service of the Child and Adolescent Addiction, Mental Health and Psychiatry Program (CAAMHPP) of Alberta Health Services in partnership with [ACH Children's Hospice & Palliative Care Service](#)
