For more information: email ces@ahs.ca or call (403) 955 - 4747

The Prevent It! Taking Action to Stop Child Sexual Abuse workshop was developed by researchers in the department of Psychiatry at the University of Alberta, utilizing leading scientific evidence.

The workshop is useful for parents, professionals and organizations that are:

- interested in learning how to protect the children in their lives
- seeking training for staff and volunteers in the prevention of child sexual abuse

After the workshop participants will feel empowered and be informed about child sexual abuse, healthy sexual development and how to reduce the risk of sexual abuse as responsible adults and organizations.

Further information about the workshop can be viewed at littlewarriors.ca

Level I: This session presents an overview of learning strategies to help prevent child sexual abuse and would best meet the needs of families and/or professionals with little to no knowledge of, or experience, with this topic.

This session is presented by the Community Education Service of the Child & Adolescent Addiction, Mental Health & Psychiatry Program (CAAMHPP) of AHS in partnership with **Little Warriors and Cochrane Public Library.**
