**8665 Nose Hill Drive NW, Calgary**

Session is **FREE**  
of charge/  
Parking fees  
may apply/

**\*\*Register:** <http://community.hmhc.ca/>\*\*

Typical speech and language development for two to five year olds will be presented, as well as when and how to seek help. There are many misunderstandings of what 'typical' speech and language development looks like in preschool-aged children. We will set the record straight and discuss when to refer, and how the 'wait and see' approach often may not be appropriate.

**Level I:** This session presents an overview of early years speech and language development and would best meet the needs of families and/or professionals with little to no knowledge of, or experience, with this topic.

This session is presented by the Community Education Service of the Child and Adolescent Addictions and Mental Health Portfolio and Psychiatry (CAAMHPP) of Alberta Health Services in partnership with Alberta Health Services Pre-school Speech-Language services.
