

Improving emotional health and well being

Domestic Violence

Bela Gupta
Team Lead/Family Counsellor
Family Services Department, CIWA

Domestic violence occurs in numerous forms and can affect individuals of any gender, sexuality, race, socio-economic status, religion, etc. Through a culturally sensitive lens, this Level 1 presentation will provide an overview of domestic violence including the various forms of abuse, the impacts of abuse on children, youth, and adults, barriers in leaving, and resources in receiving help. An examination of how the added stressors of the current Covid-19 global pandemic are directly correlated with the rise of domestic violence cases will also be discussed. The work that C.I.W.A as an organization does in regards to providing supports to victims of domestic violence will also be discussed in terms of services, programming, and workshops.
