Improving emotional health and well being

Brain Science

Sciences of Hope and Resilience

Ashley Meagher, BA, CYC & Stephanie Sands BSc

This session exists to support caregivers with the fundamental elements of brain science with a focus on the strengths of knowing how this can positively impact children and youth development. The interactive session will provide insight into brain structure and the stress response. In addition, we will explore adverse childhood experiences and Covid-19 as they relate to brain development, while providing information and strategies to build resilience.
