

# Community Education Service

*Improving emotional health and wellbeing*

## Headache in kids and teens

Causes, treatment approach, and the relationship to mental health

Presented by: Serena L. Orr, MD, MSc, FRCPC

Pediatric neurologist & headache specialist, Alberta Children's Hospital

Associate Professor of Pediatrics, University of Calgary

Principal investigator, Pediatric Headache Research Lab (PeHRL: <https://www.pehrl.ca/>)

### Objectives:

1. Review types of headaches in youth and how common they are
2. Review how we approach treating headaches in youth
3. Review the relationship between headaches in youth and mental health

**April 10, 2025**

**11:00 AM – 12:30 PM**
